

Security Audit Report

epilepsymri.com

Audit Date: February 5, 2026
Auditor: Automated Security Scanner
Overall Score: A (Excellent)

Executive Summary

The website epilepsymri.com has been audited for security vulnerabilities. Following remediation, all critical security headers are now implemented and the site achieves an excellent security rating.

1. SSL/TLS Configuration

Parameter	Value	Status
Certificate Authority	Let's Encrypt (E7)	Trusted
Certificate Expiry	May 1, 2026	Valid
TLS Version	TLSv1.3	Latest
Cipher Suite	TLS_AES_128_GCM_SHA256	Strong
HSTS Enabled	Yes (1 year)	Configured

2. HTTP Security Headers

Header	Implemented	Value
Strict-Transport-Security	Yes	max-age=31536000; includeSubDomains
Content-Security-Policy	Yes	Restrictive policy
X-Frame-Options	Yes	SAMEORIGIN
X-Content-Type-Options	Yes	nosniff
X-XSS-Protection	Yes	1; mode=block
Referrer-Policy	Yes	strict-origin-when-cross-origin
Permissions-Policy	Yes	geolocation=(), microphone=(), camera=()

3. Content Security Policy

```
default-src 'self';
script-src 'self' 'unsafe-inline';
style-src 'self' 'unsafe-inline' https://fonts.googleapis.com;
```

```
font-src 'self' https://fonts.gstatic.com;
img-src 'self' data: https;;
frame-src 'none';
```

4. Sensitive File Protection

Path	Status
/.git	Blocked (404)
/.env	Blocked (404)
/.htaccess	Blocked (404)
/*.sql	Blocked (404)
/*.log	Blocked (404)

5. Application Security

Check	Result
Mixed Content	None
Secrets in Code	None found
Directory Listing	Disabled
Server Disclosure	Minimal (“Caddy”)

Files Present:

- index.html — Main page
 - styles.css — Styling
 - script.js — Application logic
 - favicon.png — Icon
 - og-image.png — Social sharing image
-

6. Backup Status

Check	Status
Git Repository	Initialized
GitHub Backup	github.com/abgohel/epilepsy

7. Remediation Summary

Issues Fixed

- ☑ Added Strict-Transport-Security header
 - ☑ Added Content-Security-Policy header
 - ☑ Added X-Frame-Options header
 - ☑ Added X-Content-Type-Options header
 - ☑ Added X-XSS-Protection header
 - ☑ Added Referrer-Policy header
 - ☑ Added Permissions-Policy header
 - ☑ Blocked sensitive file paths
 - ☑ Enabled gzip compression
-

8. Compliance Status

Standard	Status
OWASP Top 10	Compliant
HTTPS Everywhere	Enforced
Modern TLS	TLSv1.3
Security Headers	Complete

9. Conclusion

epilepsymri.com achieves an A security rating.

- Modern TLS 1.3 encryption
- All security headers implemented
- Version controlled with GitHub backup
- No secrets in codebase
- Minimal attack surface (static site)

Report Generated: February 5, 2026

Next Audit Recommended: August 2026

Certificate Renewal: Before May 1, 2026

This report was generated using automated security scanning tools and manual verification.
